

PRODUCT DATA SHEET FIXING ANGLE AND STRAP

General Description

Fixing Angles and Straps are multipurpose metal brackets used to securely fasten or support components in construction, insulation systems, and HVAC installations. These fittings are pre-punched for easy installation and offer robust mechanical strength in various environments.

Product Types

Product	Description
Fixing Angle	L-shaped bracket for 90° joint reinforcements
Fixing Strap	Flat perforated strip for adjustable fastening and support

Technical Specifications

Specification	Fixing Angle	Fixing Strap
Material	Galvanized Steel / Stainless Steel	Galvanized Steel / Stainless Steel
Thickness	0.7mm - 1.5 mm – 2.0 mm	0.7 mm – 1.5 mm
Width	25 mm x 25mm – 50 x 50mm	25 mm – 50 mm
Length	1.2m/ 1.5m/ 3.0m	1.2m/ 1.5m/ 3.0m
Hole Diameter	slot	slot
Corrosion Resistance	Yes (Yes

Applications

- Securing insulation supports
- HVAC duct reinforcement
- Fire barrier installations
- Timber, metal stud, or frame joining
- Cable tray or pipework mounting

Features

- Pre-punched holes for ease of installation
- Flexible or rigid formats available

- Rust- and corrosion-resistant
- Strong mechanical performance

Compliance & Standards

- CE-Certified
- RoHS Compliant
- Meets EN 14566 (Mechanical fasteners for construction use)

Packaging Information

Item	Unit Packaging
Fixing Angle	As required
Fixing Strap	As required
